WORK EXPERIENCE

Frontend Developer   January 2023 - Present

Obafemi Awolowo University Computer Center, Ile-Ife, Nigeria

Project: CV Building Application

- Played a key role in developing a user-friendly frontend for the University's Curriculum Vitae (CV) building application that enables academic staff to effortlessly create their CVs in accordance with the university's standardized format.
- Developed the frontend using ReactJs and Tailwind CSS, ensuring a dynamic and responsive user interface.
- Integrated a secure and custom user authentication, ensuring data privacy and authorized access.
- Implemented a dynamic form capable of handling multiple input types, allowing users to easily input and manipulate their data.
- Integrated a preview section, enabling users to visualize how the PDF document and its contents will appear upon downloading.

Project: Rice Maestro

- Collaborated on developing a web application catered to rice farmers, offering an extensive array of farming information from pre-planting to post-harvesting stages and other information.
- Created the user interface using NextJs and Tailwind CSS, ensuring a responsive user interface and handling dynamic content rendering.
- Integrated Sanity CMS to provide a structured approach to content creation and management for content managers and leveraged Sanity's capabilities to ensure up-to-date content display on the user interface, enhancing the overall user experience.

Eyekontact Limited   January 2023 - March 2023

Project Based, Remote, Nigeria

- Created a visually appealing and modern website for the company utilizing ReactJS and Tailwind CSS, resulting in a clean and distinctive online presence.
- Developed a multi-user dashboard that empowered company staff to efficiently manage website content and products, enhancing productivity and streamlining content management processes.
- Implemented customer-oriented features, such as an intuitive booking system, providing a seamless experience for customers to easily reserve products, boosting customer satisfaction and engagement.

Kuro Communications Limited   December 2022 - January 2023

Project Based, Remote, Nigeria

- Collaborated on the development of the company's official website, leveraging HTML and CSS to create a professional and captivating online platform that successfully communicates the company's brand image and services, ensuring a compelling and engaging user experience for visitors.

National Youth Service Corps Member   November 2021 - November 2022
Al-Hikmah University, Ilorin, Nigeria

- Maintained office archives by typing, processing, and organizing documents for easy retrieval.
- Oversaw office supplies and equipment, ensuring they were well-maintained, stocked, and ready for use.
- Managed office calendars, arranged meetings, prepared agendas, transcribed minutes, and distributed communications to staff members to facilitate timely information sharing.

Intern   May 2019 – July 2019
High Tech Center for Nigerian Women and Youths (NGO) – Abuja, Nigeria

- Contributed to the company's digital brand development by effectively communicating research, events, and activities through the company's website and social media channels.
- Assisted in the planning and organization of various events, seminars, and programs.
- Facilitated computer literacy classes, equipping participants with valuable skills in using software packages to enhance efficiency, productivity, and digital citizenship.

Frontend Web Developer   July 2020 – October 2020
Intern, Obafemi Awolowo University Computer Center, Ile-Ife, Nigeria

- Learnt web development by utilizing HTML, CSS, JavaScript, and Bootstrap while ensuring optimal user experience and seamless navigation.
- Conducted in-depth research to explore technical solutions as an alternative to physical patient consultation during the Covid-19 lockdown for Obafemi Awolowo University Health Center. Presented research findings to senior staff and Health Center representatives, highlighting potential benefits and implications.
- Served as a customer service representative, effectively registering candidates and addressing and resolving complaints or issues concerning the registration process for the Obafemi Awolowo University Post Unified Tertiary Matriculation Examination (UTME).

Computer Technician Intern   June 2018 – September 2018
Thrill House Limited, Ile-Ife, Nigeria

- Consulted with customers to gather information on equipment status, issues, and repair preferences, ensuring a thorough understanding of their needs.
- Conducted troubleshooting and resolution of customer issues by performing diagnostics and repairs on PCs and laptops and installing hardware and software.
